Re: ***Ex Parte* Presentation**
WT Docket No. 01-309

Dear Ms. Dortch:

On June 30, 2003, Nokia Inc. ("Nokia"), represented by Bill Plummer, Vice President of Government and Industry Affairs, and Leo Fitzsimon, Director of Government and Industry Affairs, met with Barry Ohlson, Legal Advisor for Spectrum and International Issues to Commissioner Jonathan Adelstein. The parties discussed issues related to hearing aid compatibility, including the status of the FCC's proceeding. In addition, Nokia discussed its views on this issue, which are summarized below and are reflected in the attached materials that were provided to Mr. Ohlson from an ex parte filed by Nokia on April 10, 2003 in the above-captioned proceeding:

- The need for an appropriately tailored Commission response to this issue;
- Nokia's view that the Commission should modify, but not lift the HAC exemption by requiring each manufacturer to provide a minimum of one RF-mitigated and T-coil compatible phone per digital air interface; and
- Nokia's support for the ATIS Technical Incubator and its role to evaluate and validate the ANSI C63.19 standard prior to its mandatory use.

Pursuant to Section 1.1206 of the Commission's rules, this letter is being filed electronically with your office. If you should have any questions or need further information, please do not hesitate to contact me at (202) 887-0145.

Sincerely,

/s/ Leo R. Fitzsimon

Leo R. Fitzsimon
Director
Government and Industry Affairs
Nokia Inc.
